GlacialTech®
Enlighten Your Humanity

Overview

GlacialTech Inc., established in June 2001, is a diversified provider of cooling, power supply and PC enclosure solutions for consumers and industrial applications. Its technological areas of expertise include specialized thermodynamic theory, mounting and soldering technologies, mechanism design, test and verification environment buildup as well as advanced thermal conduction material development.

Having established strong relationships with LED semiconductors suppliers as well as thermal, SMPS and mechanism technology leaders worldwide, GlacialTech leverages world-class engineers, efficient manufacturing capabilities and finest-quality materials to provide its high brightness, high efficacy LED lighting products for indoor, outdoor and other customized applications with an optimal balance between performance and cost.

Company Profile

Headquarter :
GlacialTech Inc.
9F, No. 352, Sec. 2 Zhongshan Rd. Zhonghe Dist., New Taipei City, Taiwan, 23557

……

Established : 2001

……

Capital : US$ 3.2 Million

……

Quality Certified : ISO 14001 & ISO 9001

……

Subsidiary Company :
GlaicalTech (China)
深圳市福田区皇岗路高科利花园大厦高雅阁9C

……

Major Production Lines :
LED lighting products
LED driver / Open frame / Battery charger
Cooling solutions for PC, consumer and industrial equipments

9 F, No. 352, Sec. 2, Zhongshan Rd., Zhonghe Dist., New Taipei City, Taiwan, 235, R.O.C.

Missions

Specialty

GlacialFamily always does its level best to assure all of its customers of the highest quality, reliability & customers' satisfaction.

Quality

Provides advanced technology and excellent material consultants as well as shares successful experiences with customers.

Responsibility

Customer first, high added value service orientation.

Environment Protection

GlacialFamily is committed to be an eco-friendly solution provider and keeps away from harmful manufacturing processes that jeopardize our precious environment.

Efficiency

To raise company's core competitiveness, all the staffs do their level best all the time to upgrade the quality and velocity of research & development.

Optical Instruments

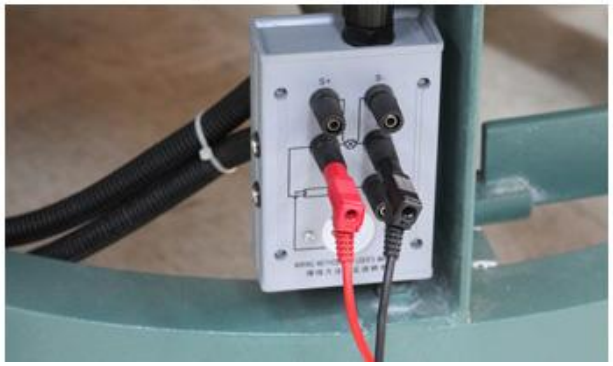
Efficient measurement of light source near-field color and luminance distributions for optical design and simulation.

Benefit: The measurement is performed from within the near-field of the light source, enabling a compact measurement setup and facilitating optical analysis and design.

9 F, No. 352, Sec. 2, Zhongshan Rd., Zhonghe Dist., New Taipei City, Taiwan, 235, R.O.C.
Tel: +886 2 2244-1227 Fax: +886 2 2244-1228

Integrating Sphere Measurement System

GlacialTech has a 0.3m and a 1.5m integrating sphere. The 0.3m integrating sphere is mainly used to confirm the due qualities of LED chips and the 1.5m integrating sphere is mainly used to verify the due properties of LED lighting products designed.



9 F, No. 352, Sec. 2, Zhongshan Rd., Zhonghe Dist., New Taipei City, Taiwan, 235, R.O.C.

Innovation & Diversification Objectives

All GlacialFamily products comply with governmental safety and EMI regulations.

High Efficiency:

Enhancing efficiency to reduce power .

High Reliability:

Increasing reliability & lifetime to reduce material waste.

Super Silence:

Striving for ultimate silence to provide users with noise-free environments.

GlacialTech®
Enlighten Your Humanity

Visited and Appreciated by President of the Russian Federation

The President of the Russian Federation, Dmitry Medvedev, who visited to one of the biggest Russian System Integrator's factory in Obninsk which produces personal computers, workstations, monoblock PCs, servers, storage systems, i-kiosks and other computer equipment, gave a high appraisal to the products where GlacialTech's cooling systems are used.

The latest monoblock systems – the first in Russia which combine a monitor and a powerful computational system, use low-profile combined coolers from GlacialTech with compact ribbed heatsinks and heatpipes. GlacialTech's coolers used in modern systems, effectively remove heat from the CPU and critical components delivering efficient and almost noiseless cooling.

Principle (Goal)

Our clients are located in all parts of the world. Irrespective of whether a business is small, medium or large or whether the business is a local, regional or global organization, we can meet their needs. GlacialTech specializes in end-to-end industry-specific solutions and specific know-how, which helps our clients increase their profitability by giving them a competitive edge.

The world these days feels smaller and smaller, and the pace of business is becoming extremely fast. This environment offers constant challenges to companies, some which are particularly fierce and can be difficult to overcome without strategic planning. Our constant strive for efficiency as well as willingness to collaborate, innovate, and think strategically in order to stay ahead of the curve makes us the ideal partner for your company in seeking to overcome present day challenges. To help you expand and meet your challenges is the way we reach our own success.
