|                       | Noise (dBA)  | 20                     | 25             | 32                 | 15~38                             |
| Interface Material    | High Efficiency Thermal Compound   |                        |                |                    |                                   |

- Approved by CE & UL Certificate
- The company has retained the rights and interests of amendments to the product specification sheet, referred to the marks and names of the respective companies of all

#### •Installation

##### Step 1

Hook one side of clip on the RM.

##### Step 2

Turn the clip to the left and hook the clip on the RM.

##### Step 3

Turn the clip to the right and fix the heatsink to the RM

##### Step 4

Plug the 3-pin (4-pin for PWM) fan power connector into the on-board 12V power connector.

Made in China
